REFLECTION QUESTIONS

Respond to the following questions in a 2- to 3-page essay format and submit to your professor for grading.

1. Was Erin Brockovich just an anomaly, or can the average simpleton truly take on the Goliath corporation and win like she did? Why or why not?
2. Did Erin ever cross the line into unethical behavior of her own to prove the case? If so, how was her behavior unethical, or even in a "gray area" of ethical behavior? If not, should she have?
3. Visit Erin's real-life web page at <http://www.brockovich.com/index.html>. How do you think the popularity of this mainstream movie has positively or negatively affected her ongoing legal work? Philosophically, what role do you think she plays in the environmental law/protection field today?
